

It is my understanding that you want to broaden your LPFM service, which would in turn, phase out the K-LOVE signal, which is heard all over. I am a paying supporter of this station, and for one would NOT want to lose my signal. It is so hard to get DECENT radio stations now days, that are worth listening to. I spend my work days inside of a vehicle, and my station is ALWAYS tuned to K-LOVE. I'm NOT ashamed to share it w/anyone who rides w/me. (I'm a cab driver!) I have NEVER heard anyone take offense to MY choice of music, in fact some even WANT to know what station is playing, so they can find it later! The music that young people listen to today can hardly even be called "music". I find it rather offensive, if not down right disgusting! When I'm in my young niece's car, I make sure she has K-LOVE pre-programmed on her radio, so she can listen to something positive and encouraging. Please! DON'T remove the ONLY station worth listening to. Their message and music need to be heard by MORE people, and I'd be willing to financially support them forever!
